

Association of Government Accountants- Guam Chapter
Presents a Three-Day Course on

SYNERGY, TOOLS FOR EFFICIENT AUDITING, AND PERFORMANCE MEASUREMENT

(Qualifies for a Maximum of 24 Hours of CPE)

The Association of Government Accountants - Guam Chapter is offering a three-day (24 CPE hours) Training on **SYNERGY, TOOLS FOR EFFICIENT AUDITING, AND PERFORMANCE MEASUREMENT** instructed by Mr. Drummond Kahn. Registrants may choose to attend one, two, or all three-days of the training (see course description and pricing below).

Wednesday, January 22, 2014 to Friday, January 24, 2014 (8:30 AM to 5:00 PM)
TASI BALLROOM, Hotel Nikko Guam, Tumon, Guam

This three-day session will equip attendees with a broad general background and specific skills in important auditing, measurement, and financial management topics. This session includes both presentation and participation components, so participants will leave with specific tools they can use on the job.

In "Synergy", we'll consider the broad range of financial management oversight tools and the phases of financial management, proposing that auditors, budget officials, and accountants can all work together toward the same efficiencies. Taxpayers demand even more results from financial managers, and this session will illustrate similarities and leverage that each financial management professional can bring. We'll also describe the concept of "risk" in its newest view, and how the most powerful financial management and audit offices can best link the risks in their organization to the limited resources available for the best public accountability.

In "Tools for Efficient Auditing", we'll describe specific methods your audit function can use to best plan, conduct, and report your important audit work. Combining specific examples from participants with those from other audit organizations, we'll cover how you can make auditing more efficient and produce more reports from your available audit resources.

In "Performance Measurement", we'll review the key components and "strings" of performance measurement data, arguing that organizations already have key components of measures already at hand. To use these components, we'll return to the "InstaMeasure!" Toolkit, and amplify this tool with specific measurement examples from participants' offices. Whether you measure audits, audit measures, or just want to best track your office or agency's work, this session will provide both the theory and practice to help you measure what's important.

REGISTRATION:

Name: _____

Organization/Agency: _____

Telephone Number: _____

Fax Number: _____

Email Address: _____

AGA Member Number: _____

Course Fees:

	AGA Member	Non-Member
One Day (Select 1 Course from Below)	\$175	\$200
Two Days (Select 2 Courses from Below)	\$325	\$375

ABOUT THE INSTRUCTOR

Drummond Kahn, M.S., CIA, CGFM, CGAP

Drummond Kahn has trained auditors and financial managers through professional associations like the Association of Government Accountants, the Institute of Internal Auditors, the California Association of State Auditors, and instructing for the USDA Graduate School, including service for USDA's International Institute, providing training in Guam, Saipan, the Federated States of Micronesia, the Republic of Palau, American Samoa, and the Republic of the Marshall Islands.

Since 1998, Drummond has taught graduate courses in auditing and financial management in the Hatfield School of Government at Portland State University. These courses include Public Administration 510, "Performance Measurement and Performance Auditing", which has trained MPA students in performance measurement. Since 2000, he has taught graduate courses in auditing in the Lundquist College of Business at the University of Oregon. He has also taught a graduate course in governance and oversight at Reims Management School (l'Ecole Supérieure de Commerce) in France.

Drummond's 23 years of professional auditing experience includes over five years of service in the U.S. General Accounting Office, the investigative arm of Congress, and more than nine years with the State of Oregon, including directing the internal auditing function in a 4,800-employee, \$1.8 Billion organization for over four years. He now directs the Audit Services Division for a large city government. In 1994, he received the GAO Regional Manager's Award for top performance among 100 auditors. He received the AGA's National Special Achievement Award for developing the performance auditing function in a large state agency (1997). He received the AGA Sacramento Chapter's 2004 Education and Training Award, a 2008 AGA National President's Award, and AGA's 2013 Frank Greathouse Distinguished Leadership Award.

Drummond holds a master's degree from the University of Oregon, a bachelor's degree from Whitman College, and completed professional coursework at the U.S. General Accounting Office Training Institute in Washington, D.C., and the Treasury Department's Federal Law Enforcement Training Center in Glynco, Georgia. He holds certificates as a Certified Internal Auditor, Certified Government Financial Manager, and Certified Government Auditing Professional. He is a member of the IIA and AGA, and is past Chair of the IIA Salem Chapter's Government Relations Committee and past President of the AGA's Portland Chapter. He serves on the Editorial Board of the Journal of Government Financial Management.
